Objectid	4
Description	Using the shaper to re-cut the keyway in the flywheel.
Image	 A large industrial shaper machine, painted green, is shown in a workshop. A large, dark, circular flywheel is mounted on the machine's table. The flywheel has a central hub with a keyway and a series of small holes around its outer rim. A metal tool is positioned to machine the keyway. The workshop background is cluttered with various tools, a ladder, and other equipment.
Thumb	 A small thumbnail version of the main image, showing the shaper machine and the flywheel.
