Objectid	1
Description	First stage of installation complete in Power Hall 3, running.
Image	 A large industrial steam engine is displayed in a museum setting. The engine is mounted on a white base and features a prominent large flywheel on the right side. To the left, there is a tall, dark cylindrical component, possibly a condenser or a water tank. The engine is surrounded by a green metal railing. A white informational sign is visible on the left side of the engine. The background shows a white wall with red and blue pipes running horizontally.
Thumb	 A small thumbnail image of the steam engine, showing the same scene as the main image but at a smaller scale.
