Objectid	10
Description	Working installation 2004.
Image	 A large, dark-colored industrial steam engine is the central focus, mounted on a red brick base. It features a large flywheel on the left side and various pipes and valves. The engine is situated in a room with white tiled walls and a window in the background. To the right, another smaller engine is visible, also on a red brick base. A green metal railing runs across the foreground. A document is placed on the right engine, and a small bottle is on the left one. Two pressure gauges are mounted on the wall between the engines.
Thumb	 A small thumbnail image showing a different angle or a smaller version of the steam engine installation, highlighting the red brick base and the green railing.
