Objectid	Description	Image	Thumb
1,113,266		 A large, green, multi-cylinder steam engine, likely a marine engine, is displayed in a museum. The engine features a complex arrangement of cylinders, pistons, and connecting rods. A man in a dark suit stands next to the engine, providing a sense of scale. The engine is mounted on a platform with a staircase leading up to it. The background shows a museum setting with other exhibits and a tiled wall.	 A small thumbnail image of the steam engine, showing the same scene as the main image but at a smaller scale.
