Description	
Image	 A large, complex industrial machine, likely a steam engine or pump, with a green-painted metal frame and numerous brass-colored pipes and valves. A man in a brown suit stands to the right of the machine, providing a sense of scale. The machine is mounted on a platform with a staircase on the left. The background shows a wooden ceiling and a tiled wall.
Thumb	 A small thumbnail image of the industrial machine, showing the same scene as the main image but at a smaller scale.
