Description	
Image	 A photograph of a green vertical steam engine, likely a portable engine, mounted on a concrete base. The engine features a large flywheel on the left side and a prominent red handwheel on the front. A brass plate on the front of the engine reads "TANCY'S BIRMINGHAM". The engine is connected to a network of pipes, including a large horizontal black pipe and a vertical red pipe with various valves and fittings. The background is a plain, light-colored wall.
