| 1,619 | After arrival at the museum |  A detailed view of a silver and black turbocharged engine. The engine is mounted on a green frame. A blue hose is connected to the turbocharger. A yellow oil filter with the JCB logo is visible on the right. A red flywheel is visible in the background. A green gas cylinder is also visible in the background. |  A small thumbnail image of the engine, showing the same components as the main image. |
