Description	Removal from the old test bay
Image	 A large red Fassi F800XP crane is mounted on a white truck. The crane is lifting a large, light-colored industrial machine, possibly a generator or motor, from a brick building's test bay. Two workers in red uniforms are visible inside the bay. The building is made of red brick and has a blue door frame. The ground is paved asphalt.
Thumb	 A small thumbnail image showing the crane lifting the machine from the test bay.
