Objectid	1,649
Description	In-situ at Newport Docks
Image	 A large, red-painted industrial flywheel with a black rubber belt is the central focus. It is part of a steam engine mechanism, with a white-painted cylinder and various pipes and valves visible. The setting is an industrial space with a blue door and a metal mesh fence in the background.
Thumb	 A small thumbnail image of the red industrial flywheel, showing the same scene as the main image but at a smaller scale.
