Objectid	2,916
Description	Installation started, June 2010
Image	 A photograph of a large, red-painted industrial machine, likely a steam engine or pump, mounted on a concrete base. The machine features a prominent large flywheel with a dark, possibly worn, rim. A man in a light blue shirt and dark trousers is kneeling next to the machine, resting his hand on the flywheel to provide a sense of scale. The machine is situated outdoors in front of a building with grey corrugated metal siding and a green door. A green metal railing is visible in the foreground. The sky is clear and blue.
