Description	Preparing to lift the engine onto the wagon in Wiltshire
Image	 A photograph showing a large, green, horizontal steam engine mounted on a wooden frame. The engine has a large flywheel and a vertical cylinder. It is being prepared for lifting by a yellow crane, with chains attached to its top. A man in a black shirt and blue jeans stands to the left of the engine, looking at it. The engine is situated outdoors next to a brick building with a grey tarp covering the roof. The ground is concrete, and there are some plants and debris in the foreground.
