Objectid	2,924
Description	Ready for test run
Image	 A large, green-painted steam engine is positioned on a wooden pallet in a workshop. The engine features a large flywheel on the left side and a horizontal boiler. Various mechanical components, including valves and pipes, are visible. A red-handled tool lies on the pallet in the foreground. In the background, a blue tarp and other workshop equipment are visible.
Thumb	 A small thumbnail image of the steam engine, showing its overall profile and the flywheel.
