Description	Spec plate
Image	 A close-up photograph of a weathered, green-painted metal engine component. A shield-shaped spec plate is mounted on the surface. The plate contains the text 'TYPE 5-112' at the top, 'CROSSLEY' in large letters across the middle, 'No' below that, and '70623' at the bottom. The metal is heavily rusted and the paint is peeling.
Thumb	 A small thumbnail version of the main image, showing the same engine component and spec plate.
