

Objectid	Description	Image	Thumb
2,948	Installed in the new Pump House	 A large, dark, circular metal cover, possibly a manhole or access panel, is mounted on a white brick wall. A yellow pipe runs horizontally across the top of the cover, with a vertical yellow pipe and a yellow-handled valve assembly attached to its center. A black pipe extends downwards from the bottom of the cover. The cover has several bolts around its perimeter and some faint markings in the center.	 A small thumbnail image of the same circular metal cover and yellow pipe assembly, showing a different angle or a closer view of the valve.
