

Objectid	Description	Image	Thumb
3,286	On arrival at the museum	 A large, green, vertical industrial engine, likely a steam or diesel engine, is mounted on a wooden frame. The engine has two large, light-colored wooden flywheels on either side. It is positioned in front of a wooden wall made of horizontal planks. The engine has a dark green body with some yellow and white labels. The entire unit is resting on a wooden base.	 A small thumbnail image of the engine, showing the same green vertical engine with wooden flywheels, mounted on a wooden frame, positioned in front of a wooden wall.
