

Objectid	Description	Image	Thumb
3,291	Completion of basic assembly.	 A large, green, horizontal industrial engine, likely a diesel engine, is shown in a workshop setting. The engine has multiple cylindrical components and is mounted on a red base. The word "ALLEN" is visible on the side. A ladder is leaning against the right side of the engine.	
3,291	During dismantling at Welches Dam, May 2010	 The same green Allen engine is shown in a workshop, now being dismantled. The engine is suspended by chains and a crane. The word "ALLEN" is visible on the side. A person in a yellow safety vest is visible in the background.

3,291	During dismantling at Welches Dam, May 2010	 A large, complex industrial machine, likely a turbine or generator, is shown in the process of being dismantled. The machine is painted red and green. It features a large, circular, metallic component in the foreground, which appears to be a rotor or stator. The machine is mounted on a concrete foundation. The background shows a large industrial building with a green roof and various pipes and structures.	 A small, square thumbnail image showing a close-up of the machine's internal components, including a large, circular, metallic part.

3,291	During dismantling at Welches Dam, May 2010	 A large green industrial machine, possibly a generator or motor, is being lifted by a crane in a workshop. A worker in a green hard hat and high-visibility vest stands next to a red trailer with the license plate P389 HNH. The machine is suspended by chains and is being moved from the trailer. A yellow container is visible in the background.	
3,291	During dismantling at Welches Dam, May 2010. Volunteer David Allen with one of the family products.	 A worker in a blue hard hat and high-visibility vest stands next to a large green industrial machine. The machine has several large circular openings and is mounted on a red trailer. The worker is leaning against the machine. The background shows a workshop with various tools and equipment.

3,291	Fitting cylinder heads	 A large, green industrial machine, likely a steam engine or pump, with the name 'ALLEN' painted on its side. A man in a light blue shirt and jeans is standing on a metal platform next to the machine, leaning against it. The machine has several large, oval-shaped openings and a complex arrangement of pipes and valves. A yellow fire hydrant is visible in the background.	 A small thumbnail image of the same machine, showing a different angle or a close-up of a part of it.

Objectid	Description	Image	Thumb
3,291	Installation, July 2010	 A large, complex industrial machine, likely a pump or engine, is being installed in a deep trench. The machine is long and cylindrical with various components, including large circular flanges and pipes. Two people are standing next to the machine to provide a sense of scale. One person is standing at the far end of the machine, and the other is standing closer to the foreground, pointing towards the machine. The machine is resting on wooden beams within the trench. The background shows a building with a green door and a red wall.	 A small thumbnail image of the same industrial machine, showing it from a different angle.
