| Description | Major work finished, October 2006 |
| Image |  A large, dark-colored industrial steam engine is the central focus, mounted on a white base. It features a complex arrangement of pipes, valves, and a tall vertical cylinder. To the right, a smaller, more ornate engine is visible. The background shows a workshop or museum environment with a corrugated metal ceiling, a green-painted lower wall, and a red floor. A green metal railing runs across the foreground, and a wooden bench with a green metal frame is positioned in the lower left. A rack of various tools, including wrenches and sockets, is mounted on the wall behind the engines. |
| Thumb |  A small, square thumbnail image showing a different angle or a smaller view of the same industrial steam engine setup. |
