Objectid	4
Description	In-situ, Kew 1
Image	 A photograph of a large, complex industrial engine or boiler system, likely a steam engine, situated in a room with a curved ceiling. The engine is dark grey or black, with various pipes, valves, and a large cylindrical component on top. The scene is dimly lit, with some light coming from the ceiling. The engine is mounted on a base, and there are various mechanical parts and pipes visible. The overall appearance is that of a well-used, industrial machine.
