Objectid	4
Description	In-situ, Kew 7
Image	 A photograph of a complex industrial machine, likely a steam engine or boiler, with various pipes, valves, and a large cylindrical component. The machine is painted a dark blue-grey color and shows signs of wear and rust. It is situated in a dark, confined space, possibly a ship's engine room. The machine features a large vertical cylindrical tank on the right, a horizontal cylindrical component in the center, and a complex network of pipes and valves. A prominent vertical pipe runs down the left side. The floor is made of dark, worn tiles.
