Objectid	4
Description	Starting the Worthington for the first time Jan 2004
Image	 A large, complex industrial steam engine, likely a Worthington, is shown in a dimly lit room with corrugated metal walls. A person wearing a blue jacket and dark boots stands on a metal platform or ladder, working on the engine. The engine features a large flywheel, various pipes, and a complex arrangement of valves and fittings. The lighting is warm and focused on the machinery.
Thumb	 A small thumbnail image showing a different view of the same industrial steam engine, highlighting its large flywheel and complex piping.
