Objectid	4
Description	In-situ, Kew 6
Image	 A photograph of a large, dark blue industrial steam engine, likely a Worthington model, situated in a museum or industrial setting. The engine features a large flywheel on the left side, a complex network of pipes and valves, and a wooden ladder leaning against it. The name 'WORTHINGTON' is visible on a metal plate at the base of the engine. The background shows a white ceiling with exposed beams and other industrial equipment.
