Objectid	5,236
Description	On display in foyer
Image	 A large, detailed model of a vintage car engine and propeller, displayed in a glass case. The engine is painted in a vibrant green and red color scheme, with a prominent black flywheel and a large, polished brass propeller. It is mounted on a silver-colored metal stand. In the background, another engine model is visible, and the setting appears to be a museum or a display room with a window and a map on the wall.
Thumb	 A small thumbnail image of the engine model, showing the same green and red engine and brass propeller as the main image, but at a much smaller scale.
