Objectid	783
Description	Bed with lower bearing halves fitted and bottom section of vertical shaft.
Image	 A large, green-painted industrial machine bed is shown in a workshop setting. The bed is mounted on a concrete floor and features two large, silver-colored bearing halves fitted into its central cavity. A vertical shaft is visible, extending upwards from the bearing assembly. The machine is surrounded by various tools and equipment, including a yellow level, a blue cloth, and a red fire extinguisher. The background shows a concrete wall with red markings.
Thumb	 A small thumbnail image of the machine bed, showing the same components as the main image.
