Objectid	783
Description	During dismantling at Somerford 2004
Image	 A large, green-painted industrial machine, possibly a steam engine or pump, is being dismantled in a brick building. The machine is mounted on a concrete base. Two workers are visible: one in a blue shirt is working on the large flywheel, and another in a red shirt is working on the lower part of the machine. Various components, including a large flywheel, a piston rod, and other mechanical parts, are scattered on the floor. The background shows a brick wall and large windows.
Thumb	 A small thumbnail image showing the same industrial machine from a different angle, highlighting the large flywheel and the mechanical components.
