789	In the air onto the wagon		

Objectid	Description	Image	Thumb
789	Looking down the station across the crank ends of the two engines	 A large green industrial engine, likely a steam engine, is shown in a factory setting. The engine is positioned horizontally, and the view is looking down the station across the crank ends of the two engines. The engine is painted green and has various pipes and valves attached. A white metal frame is visible in the foreground, and a red brick wall is in the background. A sign above the engine reads "VAUGHAN CRANE CO. LTD. MANCHESTER 15 TONS".	 A small thumbnail image of the engine, showing the same scene as the main image but at a smaller scale.
789	Pulling the engine out on channel.	 Two workers in blue overalls and blue hard hats are pulling a large green engine out of a brick building. The engine is mounted on a metal frame and is being moved along a channel. The workers are using chains and a blue container to assist in the process. The engine is painted green and has a plaque that reads "ROBERT STEPHENSON & CO. LTD. MANCHESTER".	 A small thumbnail image of the engine being pulled out, showing the same scene as the main image but at a smaller scale.

789	Second engine goes out the door	 A large green industrial engine is being moved out of a workshop door on a rail system. The engine is positioned on a set of tracks that run across the floor of the workshop. A person in a light blue shirt is visible on the left side of the frame, partially obscured. The workshop is filled with various tools and equipment, including a large green cylinder in the foreground and a large metal wheel on the right. The door is open, and the engine is being pushed out onto a paved area outside.	 A small thumbnail image of the engine being moved, showing the same scene as the main image but at a smaller scale.
