Description	Replica wheel under construction April 2020
Image	 A large green steam engine is shown in a workshop, with a massive flywheel under construction. The engine is painted green and has various pipes and valves. A large wooden flywheel is being assembled on the right side. The workshop has a wooden floor and a high ceiling with exposed beams. A green railing is in the foreground, and informational signs are visible. One sign reads "FROM SAIL..." and another mentions "STEAM ENGINE".
Thumb	 A small thumbnail image of the steam engine, showing the green body and the large flywheel.
