Objectid	992,516
Description	On arrival
Image	 A large, green-painted Kelvin engine is shown from a front-three-quarter view. The engine has two main cylinders with copper-colored pipes connected to them. White, fibrous insulation is draped over the top of the cylinders. The base of the engine is green and features two rectangular panels, each with the word 'KELVIN' in red capital letters. The engine is mounted on a wooden pallet. Various mechanical components, including valves and a pressure gauge, are visible on the front.
Thumb	 A small, square thumbnail image of the green Kelvin engine, showing a similar view to the main image but at a smaller scale.
